

DRAGONFIRE™

GAME PROGRAM INSTRUCTIONS

Dragons have driven the Royal Court from the Castle.

"O we are lost, lost!" laments the King. "Without our vast treasures we cannot raise an army 'gainst these accursed dragons. Our Kingdom must now languish under lizards!"

"Nay, not so, my liegel!" replied the young Prince. "None knows that Castle, those many bridges and storerooms, better than I. Give me leave and I shall loot those lizards of their plunder and restore my lord to his birthright."

"Brave boy," said the King, fully pleased. "But," he added darkly, "beware dread dragonfire!"

On The Bridge

Game Objective

To reach the King's treasures, the Prince runs across the bridge. He must dodge fireballs tossed by Dragon hatchlings. He nimbly ducks under the high ones and leaps over the low ones. Fortunately, the fireballs can't hurt the Prince if he runs back into the tower at the right end of the bridge.

When the Prince reaches the left side of the bridge, he arrives in the storeroom. He's inside a hiding place he can return to any time. The storeroom is filled with beautiful objects—and a fierce dragon whose very breath can cost the Prince one of his seven precious chances!

When the Dragon looks the other way, the Prince runs to each object and retrieves it for the King. And when he has bravely cleared out the room of its treasures, a way of escape appears. He runs to it and reappears on the bridge, ready for another daring raid.

Help the Prince get as many treasures as possible, before he's hit by fireballs or Dragonfire seven times!

Game Play

- First, run to the treasure room at the left end of the bridge.
- To move the Prince right, toward safety, push joystick right.

Game Variations

Pull Game Select Switch To Set Variation:

Selection Displayed	Number Of Players	You Start With . . .	
1 1	1 2	1 2	DRAGON #1 (green and mean, but slow)
2 2	1 2	1 2	DRAGON #3 (blue, and getting smarter)
3 3	1 2	1 2	DRAGON #5 (red, and very mad!)
4 4	1 2	1 2	DRAGON #7 (orange, smart, mad and fast!)

- 1 Player games: Take as many objects as you can until your 7 lives are lost.
- 2 Player games: Opponents use different joystick controllers and take alternate turns. Each player's turn continues until his prince clears out the treasure room and escapes.
 - Players will find different treasures, but the same Dragon.
 - Left player takes the first turn.
 - Left player's score is black; the right player's is red.
 - Scores flash alternately at the end of the game, when players have each used all 7 chances.

Tactical Tips

- Don't spend any more time on the bridge than you have to. Cross it as fast as you can and you'll encounter fewer fireballs.
- If you face an impossible combination of fireballs on the bridge, run back to the right tower if you can make it in time. . . you're safe there. Or make the Prince squeeze through close-trailing fireballs by jumping from a crouch (pull joystick and press button at the same time).
- In the treasure room, run fast to the objects. **KEEP MOVING!** Return to the hiding place if you need a rest, because the Dragon never stops hunting.
